I must say the trainer was very knowledgeable because she made it easy and interesting despite the fact that the system was down!

I was on the Excel intermediate IT course with Paula Wheeler and I found it really informative and well laid out, easy to pick up and understand. I found a lot of aspects which will help me in every working with spreadsheets and was quite amazed at how some of the function keys can do things right away which would normally take some time to sort through. I found Paula to be an excellent trainer who was precise and patient and went over everything in detail.

Thanks Paula for your patience and clear and excellent Excel Training course. The material included will help me through my working day, I'm sure, as the functions you covered, did actually 'wow' me :-)

The workshop has taught me a lot about Excel. Paula made sure I left with a clear understanding of the functionality I required after trying them out myself. Excellent standards, Paula is very friendly and explains things in a way that is easily understood.
