

Paul Gardiner

ICT Project Manager

Essex County Fire & Rescue Service

“I would like to formally record my thanks for the support that [REDACTED] Paula and the rest of their team have given us over the last few months (to migrate and train around 1500 users as we upgraded to Office 2010).

They have bent over backwards to help us make this happen, being thoroughly friendly, helpful, professional and flexible throughout the project, sometimes in the face of much adversity!

Without their support, it wouldn't have been possible.”
